There is no other sustainable dolly like the Samson Dolly. All parts are modular for easy repairs. The frame has mortised joints for a true, long-lasting square frame, without a metal sub-frame. Every edge is rounded for facility and user safety. High density engineered polymers provide a long life. Available with 3-1/2" or 4" non-marring gray casters with ball bearing hubs. The rubber cushions are medium gray to eliminate scuff-marks. Samson Dollies weigh only 19 pounds!

- Specifications:** Standard color is green. Custom colors and logo imprint available for orders of 250 or more.
